

DASH-0096 and DASH-0097
 Club Car Precedent 2008.5-12
 Installation Instructions

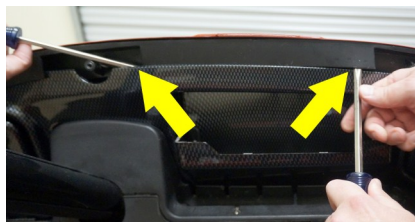

Step 1: Remove dash trim by removing the (4) Torx Bolts holding it in place. Retain hardware.

Step 2: Insert Dash, bottom side first, into the space behind the tee holders.

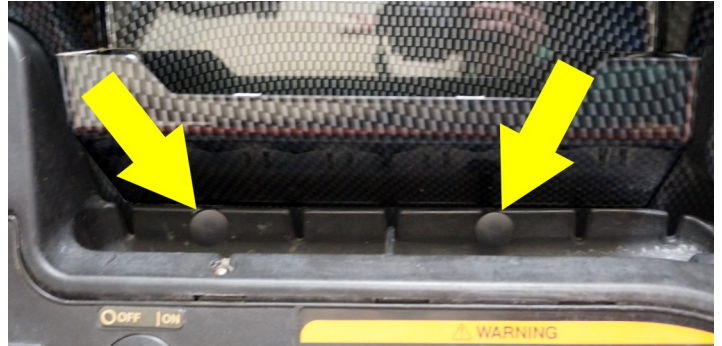

Step 3: Using a flat head screwdriver or similar tool, start on one side and pry the plastic that was behind the trim over the top lip of the dash.

Step 4: Insert the 'Christmas Tree' Rivets through the tee holder and into the two pre-drilled holes on the bottom of the dash.

NOTE: The skin of the dash may be covering the holes.

Step 5: Reinstall the dash trim using the original hardware.

Step 6: Place warning sticker in the appropriate spot. The Electric sticker is shown on top below and the Gas on the bottom below.

This completes the installation of the dash on your Club Car Precedent. Please enjoy safely!
